### EGAN INTO LIMELIGHT.

### Presbyterian Synod Replies to Attack Made on Minister.

Sioux Falls, S. D., Oct. 12. - During the closing sessions of the Presbyterian synod of South Dakota, which has just concluded its twenty-sixth annual meeting in Sioux Falls, action was taken by the synod on the intimations made several months ago by Cleorge W. Egan, formerly of Logan, la., reflecting up on the character of Rev. R. L. Barackman, pastor of the Presbyterian church in Sioux Falls. The News: Ed Mann, a butcher at Mr. Egan is the attorney who was dis- Foster, died yesterday. He had lived barred from practicing law in South there six months. 'After interviewing the principal parties connected with this case, and Concrete May Be Used, as Sand is endeavoring from other sources to secure the clearest light on different sides of the situation, your committee shinks it is best to confine its report to the one main issue, namely the truth or falsity of certain published statements reflecting on the purity of Rev. R. L. Barackman

After most careful investigation we find there was not a shred of evidence nor the shadow of a shred that could tend at all to substantiate the charges of impurity of character. We are conclusively convinced that Brother Barackman's truthfulness and purity of character are absolutely unassailable. The evidence shows that Mr. Barackman became involved in the matter innocently through gross breach of confidence. We have absofutely unimpaired confidence in him as a man and brother minister."

The fact that Mr. Egan has announced his candidacy for nomination to the office of governor of South Dakota will make the action synod of more than ordinary impor-

### KEARNEY TO PAVE.

Plentiful Near There. Kearney, Neb., Oct. 12 .- A movement is now on foot in this city to pave the principal streets with cement and concrete. Mayor Patterson has looked the matter over thoroughly and has recently made a trip to Wisconsin, where concrete paving is used in several cities. Owing to the abundance of sand to be had it is thought that this method will prove the best and the cheapest.
